

The Lomond Press

VOL. 3 NO. 45

LOMOND, ALBERTA, FRIDAY, JUNE 13, 1919

\$1.00 PER YEAR.

BASE BALL

The postponed game between Travers and Lomond called for Monday night was again postponed on account of the showers. Another attempt will be made to play off this game on Monday, the 16th. Here's hoping for another rain.

Enchant plays in Lomond on the 19th. Enchant and Lomond are the two undefeated teams in the league, so this game is apt to be a pippin.

Retlaw was defeated here yesterday by a score of 14-13. Lomond did most of her scoring in the first part of the game, while Retlaw distributed hers all the way along. Witting piteered for seven innings, Haight finishing out.

Lomond will have to get in some new blood to replace the Haight brothers.

Several have remarked on the good support the Lomond public gives the game, both at home and following the team away. There was an exceptionally large turn-out on Thursday.

And what about these fellows who get so interested in the game that they walk off and leave their cars standing around the diamond.

Tom Chapman has offered his barn for a dance after the game next Thursday night. Everybody enjoys a barn dance, so be on deck.

Alfred Jensen and J. R. McKay were up to Calgary a couple of days last week.

ESTRAYED—\$15.00 REWARD

Gone since April, black mare, 1100 lbs., a grey 2-year-old stallion, both branded NE on right hip, also a grey yearling filly, unbranded.—M. O. Eden-leaf, Lomond.

:: LOCALETS ::

Buy your tires at the Ford Garage Lomond and Travers, and get advantage of the big drop in price.—W.A. Teskey,

Rev. A. T. Bell's car retaliated on Tuesday and issued to him a splintered wrist bone.

Dr. Walkey and W.J. Clements were in Calgary this week attending the sessions of the Masonic Grand Lodge.

About the most exciting thing happening around Lomond this week was the six round bout between Kassim and Tommy. Neither were very badly hurt, but they drew a crowd in a hurry. Perhaps they will stage these things regular from now on.

There is little use in ignoring the critical crop situation through the lack of rains. While we have experienced a number of showers there has been no penetration of moisture to the depth of the roots. Nothing but early summerfall is now standing the strain and even that is beginning to burn. There is one feature though, and that is the lack of the hot dry winds.

The Bank of Hamilton is opening a branch at Lomond, A. M. Trail of Vulcan being here and negotiating the

Municipal District of Clifton No. 127

NOTICE OF IMPOUNDMENT

NOTICE is hereby given under section 210 of the Rural Municipality Act that the undermentioned animals have been impounded in the pound kept by the undersigned on the E ½ of Sec. 2, Twp. 16, Rge. 20, W. M. 4.

May 24th.—Sorrel gelding, about 7 years old, lame on right front foot, branded on left shoulder J

May 21st.—Bay gelding, about 7 yrs old, branded on left thigh UY.

May 28th.—Black mare, about three years old, about 1150 lbs, indistinct brand on left shoulder.

June 1st.—Bay stallion, white face, white on four feet, very quiet, no brand.

Dated at Lomond this 7th. day of June, 1919.

J. R. McKay, Poundkeeper.

initiation exercises. A permanent manager has not yet been appointed, but in the meantime Mr. Barber of Armada will be responsible for the institution. The north half of the Lomond Realty building will be utilized for offices.

F. R. F. McKittrick, travelling representative of the Lethbridge Daily Herald, was a business visitor in Lomond on Thursday.

Mr. and Mrs. Cameron and Mrs. Roberts, of Lacombe, are visiting at Lomond, being the guests of Mr. and Mrs. G. D. Salter.

The local U.F.W.A. are holding their annual picnic at the home of Mrs. Finley on Thursday, July 9th.

Anyone losing a Ford license holder and tail lamp can learn the whereabouts of one found by calling at THE PRESS office.

One of the little Bailer lads from near Forrestville was thrown from a horse while returning from school. He sustained a broken leg.

Departmental Examinations for grade 8, 9, 10, 11, and 12 will be held this year on July 2nd, 3rd, 4th, 7th, 8th, 9th, 10th, and 11th, at Lomond.

The Department will supply the required foolscap, drawing paper, squared paper and ink, but candidates will provide themselves with rulers, compasses, penholders, etc. Candidates writing on the examinations in drawing must provide themselves with a soft eraser, a good drawing pencil, ruler,

India Ink, water colors and a suitable brush or brushes. For the work in water colors a supply of water and conveniences for cleansing the brushes should be available.

Candidates who have not selected one of the centers should notify the Board at which centre they desire to write.

John Tibbitts sustained serious injuries on Wednesday when he was run over by a wheel on his tractor plow. The trip-ropes broke and he fell backwards under the moving machine. He sustained three fractured ribs besides other severe bruises.

D. W. Elves of Sorries, N. D., was the guest of Mr. and Mrs. H. E. Elves over the week-end, he being on a trip up through B.C.

A small boy near Retlaw was severely injured in a runaway accident on Wednesday. The horse was frightened by a motor car and when it jumped the little lad was thrown out. His clothing caught in the step, holding his head against the spokes of the wheel until he was nearly used up.

The inspector of telephones was in town on Thursday. The gang will be here to install the local exchange in a week or ten days time.

The council of the Municipal District of Clifton has authorized improvement of the east and south roads from town, as well as the Valley west bank. Work is now progressing on the line running north to Armada on the Leo Herman line. A new grader is being bought for the three north divisions.

Dad Cox was caught in the rush and forced to go to Lethbridge for cream and supplies last Sunday.

Medical Inspection for Schools

It is of prime importance that School Trustees should avail themselves of the services of the Public Health Nurses who, next week shall be stationed in different centers in the Province to conduct child welfare stations and to inspect the children attending school. Although for years it has been optional for Trustees in rural school districts to have medical inspection of the children attending school, but a small number of schools have ever been so inspected. To render this service more general and at the same time to reduce the expense to School District, Registered nurses, by means of a special course of instruction given at the Provincial University, are being qualified to do this work. In the various cities, towns and villages throughout Canada where there is inspection of schools by doctors and nurses, about forty per cent of the children are found to have ailments that are prejudicial to health. Although the Legislature did not make such inspection compulsory in rural schools, it is inconceivable that any board within striking distance of where a Nurse Inspector is located will do aught else except send a request at once that the school be inspected. The Department of Health is bearing about one-half the whole expense.

It trains the nurses, pays their salaries and living expenses, and the school district is asked to pay only a maximum of \$20. with a minimum of \$10. for such inspection of all children attending any rural school. There are only twelve such specially trained nurses in the Province. Ten will be placed at particular centers and two will be given each a roving commission.

The necessity of such inspection in 1910 in schools of ten leading cities in the United States, where on an average of 1,000 children inspected it was found that there were defects and ailments actually injurious to health at the time of inspection in the following number of children, as to teeth 415, throat 201, eyes 153, nose 108, glands 118, ears 30.

Professor Olser, recently at the Academy of Medicine in London, England, said "If I were asked to say whether more physical deterioration was produced by alcohol or defective teeth, I should say defective teeth."

If school trustees are in any doubt as to the beneficial result of the inspection of their school by a nurse-inspector, they are advised to write the Secretary Treasurer of any school thus far inspected. There were only four such nurses heretofore qualified. They inspected a number of schools last year and these, among others, Coaldale Consolidated, Rainbow, Crystal Lake, Beaver, Pioneer, etc., near Lethbridge; Scottfield Consolidated, Keystone, and others near Youngstown; Killam, Poplar

Park, Asquith, etc., at or near Killam; Vermillion, Centre, New Mannville, Bowling Green etc., at or near Vermillion.

Several towns and villages are now co-operating with the Trustees of the surrounding districts so that a nurse may be stationed to conduct child welfare work and to inspect the school and give health talks in every districts. The Minister of Health has found that while the fee of from \$10. to \$20. according to attendance is considered very reasonable as to rural school districts, the straight maximum charge of \$20. per room in the towns and villages is considered excessive, and the Minister agrees that is excessive. He has therefore written all parties interested and stated that for their effort in co-ordinating the work that to any town or village that secures co-operation of at least ten rural school districts, that is inspection and furnishing transportation for the nurse, he will allow such town or village a deduction and the amount and the amount such town or village will be required to pay will be \$20. for the first room and only \$10. for each other room. Thus in a five room village or town school the charge would only be \$60. The Minister says he can observe the statue by giving the Trustees a receipt for the remaining \$40. for services rendered the Department and similarly in all cases, no matter what is the number of rooms. It should be clearly understood, however, that no nurse will be

Elliott, Argue & Co.

placed at any center to do child welfare work, except in connection with school inspection. It is hoped that the eight graduating nurses will commence work next Monday.

The average parent in the Province is alive to the necessity of thorough inspection of all school children, lest his child be desk mate to a child afflicted with a communicable or other disease. In some school districts it has been found that there are forty rate-payers and only a few children attending school, therefore the minimum fee of \$10. applies and therefore the cost to each rate-payer is but 25 cents. It seems quite clear that as to any trustee who does not bestir himself and immediately arrange to have his school inspected, his service as a trustee will not long be required in any districts. Requests have been made to recall trustees who are not active in taking steps to secure school inspection.

The Public School Inspectors are very enthusiastic over this work and are willing to give all the assistance they possibly can to assist in the necessary organization or in any other way.

LOMOND, ALBERTA, JUNE 13, 1919

NOTES

We farmers are again being impressed by the value of summerfallowing. Since wheat jumped up to a high figure there has been a general tendency to take a chance on poor farming. After four years of observation we fail to see where anyone has made any money by it. The general run of cases proves a dead loss.

Several complaints would indicate that while burning, at least, the present nuisance grounds location is a nuisance.

Now that the municipal council is starting in on a road campaign, we would point out the value of the road drag as illustrated on the main street in Lomond. It's a poor policy to leave raw earth work without being drag-surfaced after it has been given time to properly settle.

The labor entanglement appears to be getting worse and worse. Both sides are adamant. The alien situation in Winnipeg is getting itchy and is apt to develop into something serious. Good leadership is still lacking on both sides. With the railway men contemplating a sympathetic walk-out, labor can see victory in sight. Just the same, we still maintain that the postal workers were ill advised to quit their posts.

By a large sign-board Okotoks advertises the fact to pass-

sing travellers that it is the ideal residential center of Southern Alberta. Admitting its climatic and topographical advantages, we take exception to general appearances. A well-directed town fire and the application of about a thousand gallons of paint would change the sign from the ridiculous to the sublime.

We would like to get after some of these ding-busted would-be road builders and give them a few pointers on construction. Take over around Vulcan, they are trying to keep up a roadway with a forty foot base and they have nothing but bumps and corduroy. It is not necessary to build a speedway for four cars abreast. A reasonable margin of safety for two rigs to pass is all that is necessary. Spending all this money on something that cannot be kept up is certainly a waste of energy.

There is an agitation on to keep autos off the roads while they are wet. They should reverse the action and make it an offense for not dragging up the roads after a wet spell.

Frequently we are given a dig on the size of THE PRESS pages, but it is some satisfaction to learn that The Family Herald and Weekly Star is reverting to a page of practically the same size, and for some time the weekly edition of the Manitoba Free Press has been printed on a similar sized sheet.

It is quite a habit with the country weeklies to keep continually on the prod for subscription money, and it is hard to keep it up without at times becoming offensive. But THE PRESS has had phenomenal success with its own little phrase.

L. H. Phillips

NOTES

Sir Thomas White's tariff reforms are not meeting with approval at all by the people who were hoping to see something radical happen to the high cost of living. It does appear as if the Canadian manufacturers had no little say in the drafting of the proposals. Our own opinion of the situation is that Canada needs absolute free trade. They can talk all they like about trade balances between one country and another, but in the end free trade works out to the advantage of the common people as a whole. As it stands we pay an indirect tax on everything sold in Canada. It would be cheaper for the people to pay direct. And as far as a market for our products is concerned we can not see how it would but be advantageous for Canada. Well, Crerar has quit the Union government and the western farmers are lining up behind him pretty strong, so we may yet hold out hopes for a change.

ARMADA

The U.F.A. hall will be completed this week, weather permitting. Jens Sokvitne is doing the work, with the members of the local U.F.A. as assistants.

o o o

Business at the Bank must be increasing. Mr. Barber has found it necessary to import an assistant.

o o o

U.F.A. Sunday June 15th. will be by the Armada local. Mr. Moore of Calgary, will conduct the service in the new hall.

o o o

Jack and Bill Haight are leaving in a few days for the famous Peace River country. Here's luck, boys.

o o o

The delegates who attended the U.F.A. convention in Calgary last week to organize for political action in the Federal Constituency of Bow River, gave their report at the last meeting of the U.F.A. All present were impressed with the idea that the boys were not

out as their report covered every phase of the situation, so that it was almost as good as attending the convention oneself.

o o o

It looks as if the telephone was going to arrive in our little corner of the world at last.

Cash Prizes for Boys and Girls

If the development of type in live stock, no factor has proved more potent than public live stock competition. In the prize ring is exhibited the best stock the country has, the mediocre and sometimes the poorest. By contrast, desirable type and finish are impressed upon the exhibitor in the most effective manner. To that end, the Honourable T. A. Crerar, Minister of Agriculture, has completed arrangements whereby the Canadian Bankers Association will again co-operate with the Dominion Department of Agriculture, in providing liberal cash prizes to boys and girls under seventeen years of age who exhibit pigs or calves at their local fair, and who comply with the rules governing the competition, known under the name of "The Canadian Bankers Competition." And the Canadian Bankers Competition are proving of no little value in teaching the future live stock producers of this country the value of type in cattle and pigs. The healthy rivalry prevailing in the prize, together with the reward for merit deserves full development, and these competitions should receive the support and encouragement of all live stock associations and clubs, as well as the individual producer.

Canadian Bankers Competition will be held at practically all the summer and fall fairs in the Dominion during the coming season. Boys and girls eligible to compete for the prizes offered can do no better service for the country than to enter these competitions and thereby materially contribute to the production of a better class of live stock. No time

should be lost in finding out about all these competitions. The importance of quick action is apparent when it is understood that the calves and pigs must have been fed for a period of at least six weeks by the boys and girls who exhibit them.

Full information regarding the competition can be obtained from the Manager of any Branch Bank in the locality where a Fair is held, and boys and girls are urged to get in touch with the Manager, who will supply on application a copy of the rules together with other information.

Encampment Notes

The recent election of officers at the Vulcan Encampment resulted as follows: W. M. Armstrong, C. P.; A. R. Hanna, H. P.; John Johnston, S. W.; L. Dawson, J. W.; W. O. Torgussen, R. S.; P. Irving, F. S.; John Dewey, Treasurer.

The Lethbridge degree team will visit the Vulcan encampment, I.O.O.F. on Monday June 23rd. and put on the Royal Purple degree, while the Vulcan team will put on the Golden Rule for those are awaiting this course of instruction. There will be a banquet at the close and all members are urged to be present.

Municipal Hail Insurance

Why You Should Not Withdraw From the Operation of the Act

The Hail Insurance Board, elected under the provisions of the Municipal Hail Insurance Act has established headquarters in Calgary with offices at the Canada Life building. The officials are farmers of many years standing, men who have had practical experience on the land, as municipal officers and with hail insurance. The adjusters have already been appointed and everything is in readiness for the season's operations. Those who are taking advantage of the act and insuring their crops with this Board are assured of a square deal.

There are many reasons why the farmers of Alberta should support this plan of hail insurance. Space will not permit to give all the details, but a few can be enumerated that will show the farmers that to be insured with Board is absolutely safe.

(1) **The Farmers' Own Company.** It is endorsed by the U.F.A., by municipal conventions, and by the majority of the organized municipal districts of the province.

(2) **Insurance at Actual Cost.** There are no commissions to be paid to agents and no profits to be paid to shareholders.

(3) **Absolutely Fair Adjust-**

ments. The staff of adjusters appointed by the Board are all farmers, every one of them having crops of their own that may be hailed out to-morrow. They would be adjusted by some other farmer, consequently it would not pay them to make anything but fair adjustments with those they are dealing with.

(4) **Settlements Made Promptly.** The Board has arranged for sufficient funds to take care of any amount of business. They have a credit of \$1,000,000.00 and can get as much more as they require.

(5) **A Cash Proposition on a Credit Basis.** The rate is struck in September, but the premium is payable at par any time until December 15th. The rate is only sufficiently high to pay all losses in full, and the cost of administration, and to provide a small surplus for the better carrying on of the business.

Everything else being equal, it is a matter of dollars and cents to the farmers. The line companies by their own figures have made big profits during the last five years in the Province of Alberta. There is no reason why this money should not be retained in the pockets of the farmers, and at the same time they will receive the same protection on their crops under the municipal hail insurance plan.

If any further information is desired, apply to the secretary-treasurer of your municipal district, or to the Hail Insurance Board, Box 140, Calgary, Alberta.—Adv.

Hail Insurance!

Tires Take a Drop . . .

Since war began the trend of prices has been steadily upward, so it may surprise you to learn that tires have taken a drop. Reputable manufacturers find that post-war conditions allow them to manufacture and market a tire at lower price than before and are extending to the public this advantage.

Ford Cars and Repairs

Auto Accessories, Tires, Gas,
Oils---Free Air Service.

New Price List on Parts

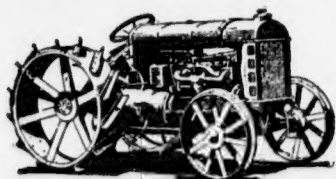

The Ford Company, by post-war conditions, is making a new repair price list which will mean quite a saving to the owners of Ford cars.

Repair Work
